

Nature Therapy CIC

Access Statement

We warmly welcome all participants.

However due to the nature of the terrain we use in some of our work we are aware that participants will need as much information as possible to make an informed choice to take part.

We will try to give you the specific information you require and we are always happy to try and make adaptations if you need further assistance.

Give Kim a text or call on 07922617479 and she will provide you with details for pre-arrival, car parking facilities, venue, terrain, and access to toilets.
